## 1959-60 Newest and Best Varieties

Dear Customer:

If you have never tried Miniature Roses we suggest that you place a small order and give them a trial. They can make money for you.

The New Miniatures are enjoying ever increasing popularity. They are easy to grow and can bring your gardening customers much joy and satisfaction.

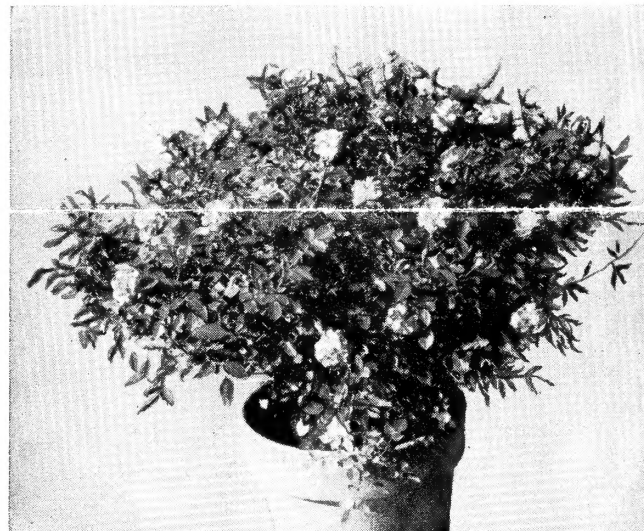

Miniatures are excellent for low borders, redwood tubs and pots. Most yards and gardens are smaller today but your customers like to grow as many plants as possible. Miniature Roses can be one of the answers. They are easily grown in little space. Plenty of sunshine, water and a little fertilizer are about all they need.

Miniature Rose DIAN is especially recommended for use as a florist potted plant. Also suggested are the new LOLLIPOP and MONA RUTH.

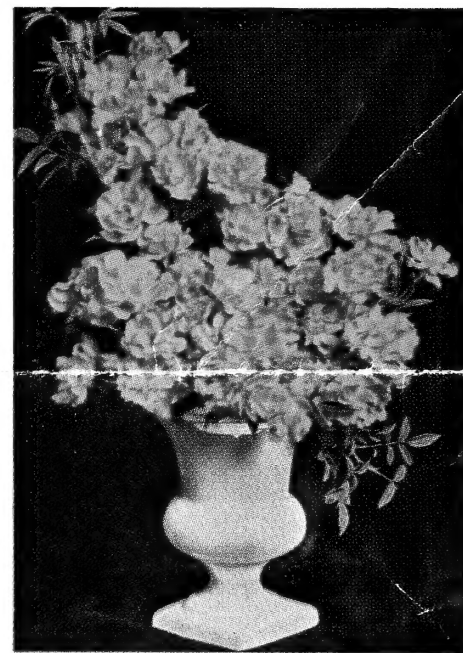

Instructions for planting and care will be sent with each order.

Sincerely,

\***ORANGE ELF.** (Pat. R. R.). Shapely, orange colored buds. New color in Climbing Miniatures. Blooms even in small pot. Ground cover (or climber to 2½ feet tall).

Dian Growing in 8-in. Pot.

**MAGIC WAND.** (Pat. R.R.). New red everblooming miniature climber. Tiny Tom Thumb buds. Always in bloom.
